Some City Residents May See Reduced Water Pressure Thursday Morning

Due to necessary and ongoing upgrades to the City of Auburn's public water system, the lower pump station will be off-line on Thursday, April 28th from 7:30am to 10:30am to allow electricians to perform electrical upgrades. Some residences located at high elevations within the City may experience a reduction in pressure during this time period.

Individuals with questions may call the City of Auburn Water Treatment Facility at 315-253-8754 or the Cayuga County Health Department at 315-253-1560. The Cayuga County Health Department Web site will have up-to-date information. Please visit www.cayugacounty.us/health for more information or contact us by phone at 315-253-1560.
