Re: Auburn Police Department Unveils New Web/Facebook/YouTube Sites

The Auburn Police Department has redesigned its website and also created department Facebook and YouTube pages. We've designed these sites to provide our citizens with the most recent and up to date information that we can offer in order to help keep our community safe and informed on matters that are important to you.

Some of the features of the redesigned website include tips to our citizens on crime prevention as well as a searchable listing of all active warrants held by the Auburn Police Department. Also, citizens are able to anonymously "Submit a Tip" via the website. This will allow citizens to help keep their community safe without having to get directly involved in an incident.

Another feature of the website is a listing of recently reported stolen property. This feature was a suggestion by local second hand merchants who wished to assist Police in the recovery of stolen property and will allow these dealers to search for stolen items before and after they purchase items in an effort to help return the items to their rightful owners.

These enhanced features of the new website will expand our agency's ability to inform, educate and notify citizens of situations ranging from missing persons and dangerous situations to ordering an automobile accident report online.

Please visit each of these sites at the URL provided below:
