

'History's Hometown'

CITY OF AUBURN

Department of Municipal Utilities

Subject: Addendum #5, Biosolids Processing and Dryer Design

Date: June 19, 2020

To All Prospective Bidders:

Item #1: An allowance in the pricing submittal for the geotechnical investigation scope listed in the proposal shall be incorporated. This allowance will also be utilized for any preliminary survey or environmental testing required during this phase. This item is set at \$15,000 and will be paid hourly not to exceed \$15,000.

Item #2: The City requests that all proposals submitted are in accordance with a City owned design-bid-build facility. Any proposals that propose an alternative delivery will not be considered. Proposers must show core competencies in processes described in the Feasibility Study which include proven solutions running at scale with municipal biosolids for 5 years or more.
