

CITY OF AUBURN NEW YORK

“HISTORY’S HOMETOWN”

Design Services for the Auburn Public Safety Building

Site Walk-Through Clarification

Date Issued: January 23, 2020

Several inquiries have been received related to the scheduled site walk-through for Monday January 27th at 1:00pm. The RFP was unclear as to where the Site Walk Through would occur.

The Site Walk-Through scheduled for Monday January 27th at 1:00pm will be located at the project site. The building and site address is 31 Seminary Street, Auburn NY 13021. Parking is available onsite.

An introduction to the project will be provided by City staff and the construction management team from Hueber-Breuer Construction Co. from inside the vacant building. A portion of the building will be open to the design team for inspection and field notes.

Any questions received to date requesting additional information will be clarified and answered by Friday January 31st by 4:00pm. The RFIs will be issued to the City Bid website under this project.
