City Road Construction Program Update

May 8, 2023

The microsurfacing crew is scheduling road work to be performed in the City of Auburn. Planned Microsurface streets by Suit-Kote Corporation:

Monday 5/8/2023:

| Street | From | To | Procedure |
|----------------|---------------|-------------------|--------------|
| Seymour St | Washington St | North Division St | Scratch Coat |
| Kensington Ave | Genesee St | West Clymer St | Scratch Coat |
| Hamilton Ave | South St | Burt Ave | Scratch Coat |
| Silver St | Lake Ave | Throop Ave | Scratch Coat |
| | | | |

Note: Seymour St. from Washington St to North Division St will be single laned with flaggers at each end allowing limited traffic flow.

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.**

Thank you for your patience while we do these road improvements.
