City Road Construction Program Update

May 10, 2023

The microsurfacing crew is scheduling work to be performed in the City of Auburn. Planned Microsurface streets for May 10, 2023 by Suit-Kote Corporation:

Wednesday 5/10/2023:

| Street | From | To | Procedure |
|--------------|-------------------|------------|--------------|
| Perrine St | North Division St | Bradley St | Scratch Coat |
| Hamilton Ave | South St | Burt Ave | Scratch Coat |
| Silver Ave | Lake Ave | Throop Ave | Scratch Coat |
| Boyle Ave | Prospect St | Bowen St | Scratch Coat |
| | | | |

Note: Perrine St between North Division St and Bradley St will be single laned with traffic one way only.

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.**

Thank you for your patience while we do these road improvements.

Thank you,
Auburn Engineering
