City Road Construction Program Update

May 11, 2023

The microsurfacing crew is scheduling work to be performed in the City of Auburn. Planned Microsurface streets for May 11, 2023 by Suit-Kote Corporation:

Thursday 5/11/2023:

Street	From	To	Procedure
Seymour St	North Division St	Washington St	Overlay Coat
Kensington Ave	Genesee St St	West Clymer St	Overlay Coat
Rescheduled - Boyle Ave	Prospect St	Bowen St	Scratch Coat

Note: Seymour St between North Division St and Washington St will be single laned with traffic one way only.

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.**

Thank you for your patience while we do these road improvements.

Thank you,
Auburn Engineering
