City Road Construction Program Update

May 15, 2023

The microsurfacing crew is scheduling work to be performed in the City of Auburn. Planned Microsurface streets for May 15, 2023 by Suit-Kote Corporation:

Monday 5/15/2023:

Street	From	To	Procedure
Perrine St	North Division St	Bradley St	Overlay Coat
Hamilton Ave	South St	Burt Ave	Overlay Coat
Silver St	Lake Ave	Throop Ave	Overlay Coat

Note: Perrine St will be single laned to allow traffic flow in one direction.

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.**

Thank you for your patience while we do these road improvements.

Thank you,
Auburn Engineering
