City Road Construction Program Update

September 13, 2023

The microsurfacing crew is scheduling road work to be performed in the City of Auburn. Planned Microsurface streets by Suit-Kote Corporation:

Thursday 9/14/2023:

Street	From	To	Procedure
Chapel St	Entire		Overlay Coat
Amherst Ave Ext	Entire		Scratch Coat
Belle Ave Ext	Entire		Scratch Coat
Highland St	So. Marvine	So. Hunter Ave	Scratch Coat
Bowen St	Prospect St	Boyle Ave	Scratch Coat
Dunning Ave	Genesee St	West Clymer St	Overlay Coat

Note: Dunning Ave. between Genesee St and West Clymer St and Chapel St will be single laned to allow limited traffic access .

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.**

Thank you for your patience while we do these road improvements.

Thank you,
Auburn Engineering
