

CITY OF AUBURN
APPLICATION FOR DWELLING UNIT CONVERSIONS
(Two (2) or more dwelling units)

All dwelling unit conversions must comply with section 305-29 of the City of Auburn Municipal Code. **\$100 filing fee must be submitted with application.**

A Special Use Application must accompany the Conversion Application. There is a \$150.00 fee associated with this action.

In order to obtain a permit for conversion the following documentation is required for review by the Code Enforcement Officer:

1. Boundary survey prepared by a New York State licensed land surveyor showing all structures, parking areas, and adjacent streets.
2. Scale drawings signed and sealed by a licensed architect and/or engineer, certifying to the design and specifications in accordance with the New York State Uniform Fire Prevention and Building Code, the New York State Education Law, and any other applicable federal, state, or local regulations.
3. Landscape and off-street parking plan. Stacking is not permitted. Please call the Code Enforcement Office for determination of the number of off-street parking spaces required for your conversion plan.

Note: Review by the City Engineer and/or Code Enforcement Officer, and issuance of an excavation and/or building permit is required prior to installation of any new curb cuts, driveway aprons, driveways, and/or sidewalks.

4. Snow removal and snow collection plan.
5. A conversion of two (2) or more dwelling units requires compliance with New York State handicapped accessibility requirements.

PERMITS EXPIRE ONE (1) YEAR FROM THE DATE OF ISSUANCE.

THE DISPOSAL OF ANY CONSTRUCTION AND/OR DEMOLITION DEBRIS IS THE SOLE RESPONSIBILITY OF THE OWNER.

6. DESIGN CRITERIA: The following criteria will be reviewed by the Code Enforcement Office prior to the issuance of a building permit:
 - a. Exterior evidence of conversion shall be minimized and appearance of the structure as a single-family dwelling preserved.
 - b. Where practical, mailboxes and utility service meters shall be screened from view.
 - c. Parking and driveway areas shall be designed to preserve mature trees and shrubbery.
 - d. Appropriate screening consisting of either fence or hedge (4 – 6 feet in height) shall be provided to prevent automobile headlights from beaming into adjoining buildings.
 - e. Design shall consider compatibility of outdoor uses of subject property and adjoining properties.
 - f. Parking and driveways shall be oriented to the building entry to encourage actual use of off-street parking area.
7. Every off-street parking area shall be paved in such a manner so as to provide an all-weather durable and dustless surface and shall be graded and drained to dispose of all surface water accumulation in the area without shedding additional water on any adjoining property or right-of-way.
