

June 8, 2020

The microsurfacing crew is scheduling work to be performed in the City of Auburn. Planned Microsurface streets by Suit-Kote Corporation:

Tuesday 6/9/2020:

Street	From	To	Procedure
Wood St	Genesee St	Arch St	Scratch & Overlay
Pine St	Church St	Clark St	Scratch & Overlay
Benton St	Clark St	Orchard St	Scratch & Overlay
Wright Ave	Columbus St	End of Residential Area	Scratch & Overlay
**Quarry Road	North St	York St	Scratch & Overlay

**Quarry Road is on the list as an option as an alternative street and if there is enough time.

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and they require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.

Thank you for your patience while we do these road improvements.

Thank you,

Kenneth Tanner,

Engineering
