

June 10, 2020

The microsurfacing crew is scheduling work to be performed in the City of Auburn. Planned Microsurface streets by Suit-Kote Corporation:

Thursday 6/11/2020:

Street	From	To	Procedure
Nelson St	Lansing St	Park Ave	Overlay
Nelson St	Seymour St	Lansing St	Overlay
North Lewis St	Lansing St	Seymour St	Overlay
Dayton St	North St	Vista St	Overlay
Quarry Road	North St	York St	Overlay
No. Fulton St	Standart Ave	Dead End	Overlay

NOTE:

Nelson St between Lansing St and Park Ave shall have a single lane closure with flagmen to accommodate emergency vehicles entering the Hospital's Emergency Entrance.

Nelson St between Seymour St and Lansing St shall be closed completely

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and they require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.**

Thank you for your patience while we do these road improvements.

Thank you,

Albert Cockrell,

Engineering

24 South Street
Auburn, NY 13021
