

June 9, 2020

The microsurfacing crew is scheduling work to be performed in the City of Auburn. Planned Microsurface streets by Suit-Kote Corporation:

Wednesday 6/10/2020:

| Street | From | To | Procedure |
|----------------|------------|------------|--------------|
| Nelson St | Lansing St | Park Ave | Scratch Coat |
| Nelson St | Seymour St | Lansing St | Scratch Coat |
| North Lewis St | Lansing St | Seymour St | Scratch Coat |
| Dayton St | North St | Vista St | Scratch Coat |
| Quarry Road | North St | York St | Scratch Coat |
| | | | |
| | | | |

NOTE:

Nelson St between Lansing St and Park Ave shall have a single lane closure with flagmen to accommodate emergency vehicles entering the Hospital's Emergency Entrance.

Nelson St between Seymour St and Lansing St shall be closed completely

Suit-Kote will notify all residents with door hanger notifications stating that the road will need to be closed, and they require residents to stay parked in their driveways or on adjacent streets until the material has reached its approximately 2 hour cure time, after which the streets will be open for traffic.

Microsurfacing is a 2-step process which will require a second coat (overlay treatment) following the initial scratch coating which could be installed either the same day or the following day, weather permitting. **Any planned work delays due to rain** or other unforeseen circumstances will be rescheduled and the affected residents will be notified again.

Thank you for your patience while we do these road improvements.

Thank you,

Albert Cockrell,

Engineering

24 South Street
Auburn, NY 13021
